

**SIXTEEN YEARS
IS PUNISHMENT FOR
SCHOOL TEACHER**

Teacher, Who Is Charged With Being Indirectly Responsible for Girl Pupil's Death, Is Given Penitentiary Term.

Thomas Sebree, Jr., 21 years old, schoolteacher at Bracht Station, Ky., was convicted by a jury Friday following a trial in Kenton Circuit Court on a statutory charge in connection with the death of Zelma Clemens, 14 years old, Sebree's pupil-sweetheart, also of Bracht Station, which was said to have been the result of an illegal operation performed by a Covington physician. The jury fixed his punishment at 66 years in the penitentiary.

Sebree was accused of having accompanied the girl to Covington on April 8 when the alleged operation was performed. Later she became ill, and on May 24 last she died of complications resulting from the operation.

John B. O'Neal, attorney for Sebree, did not place the defendant on the stand. Following the conclusion of the Commonwealth's testimony, Attorney O'Neal filed a motion requesting the court to give peremptory instructions to the jury to find a verdict for the defendant because, he said, there had been no evidence adduced which showed that the offense for which Sebree was indicted had been committed in Kenton county. Judge F. M. Tracy overruled the motion.

Commonwealth Attorney Orie S. Ware, who conducted the prosecution, scored Sebree for his attentions to the young girl pupil under his charge. He accused the schoolteacher of having violated the confidence of the Clemens family and of the School Trustees who had placed him in charge of the district school at Bracht Station and the pupils attending it.

Seated beside Attorney Ware and his associate counsel, County Attorney Edward J. Tracy and Attorney John H. Vest, of Crittenden, Ky., when the verdict was returned, were Mr. and Mrs. Clemens and a number of relatives. On the other side were Sebree, his father, Thomas S. Sebree, wealthy farmer at Bracht Station; a number of relatives and Attorney O'Neal.

When his punishment was announced by the foreman of the jury Sebree remained quiet and made no demonstration of his feelings. Attorney O'Neal expressed surprise at the verdict. He announced he would seek a new trial, and in the event it is denied will appeal.

**TWO PLANTS SEIZED
AS NEW CLEWS
APPEAR IN CASE**

State Dry Officials Confiscate Liquor In Two Lawrenceburg Plants—Note Showing Receipt Is Found.

Louisville, Ky., July 8.—Simultaneously with the seizure Friday at Lawrenceburg by government representatives of the Bond Brothers distillery and the Paxton Company warehouse, Chief of Detectives DeForester, of Louisville, announced a new clue in the murder of John Thomas, 32, of Louisville—the finding Thursday of a receipt for \$18,000 near the scene of the murder.

Another angle to the investigation was the probe being conducted at Covington by M. B. Banc, chief field deputy in the office of Collector of Internal Revenue Robert H. Lucas into the theft of 183 barrels of whiskey from the Paxton warehouse within the last two weeks.

The receipt was found by Anderson county officers investigating the slaying of Thomas and the removal of whiskey from the warehouse. The nature of the receipt was not disclosed. It was held by Anderson county officials along with a letter addressed to W. C. Hamm, of Louisville, found in the victim's pocket when his body was discovered Saturday near the distillery.

Importance was attached to the receipt. Efforts were being continued to locate the superintendent, known as "Mr. McKay, from Cincinnati," who disappeared following the finding of Thomas' body.

Captain DeForester interviewed George Patton, of Louisville, brother-in-law of Thomas, and Martin Thomas, brother of the victim. According to Captain DeForester, Mr. Patton said that he and his wife had been camping on the Kentucky River a mile and a half from the distillery and that John Thomas was there last week, but he was unable to give the names of other persons who had been to the camp.

Martin Thomas denied having visited the camp. Captain DeForester reported.

Confiscation of the distillery and warehouse, both on the same premises and approximately 900 barrels of whiskey, resulted from investigation ordered by U. S. Attorney, Federal Prohibition Commissioner at Washington, who in telephone instructions Thursday to Collector Lucas and P. Green Miller, district prohibition agent, directed that the properties be seized if the inquiry warranted such action. Mr. Haynes was notified late Thursday afternoon that the confiscation would be carried out Friday morning.

At bootleggers' prices of \$40 a gallon the whiskey seized Friday would be worth approximately \$1,600,000. Seizure of the plants at Lawrenceburg was the sixth confiscation of distillery property in Kentucky by the government within a month. The Ruby distillery was the only local plant, the others being located in rural districts.

**WOMEN FIGHT
WOMEN IN THE RAIL
STRIKE NOW ON**

Disorders Continue In Chicago as a Result of Shopmen's Strike at Railroad Yards in the Windy City.

Chicago, July 8.—Women battled against women in the railroad shopmen's strike war today.

Railroad employment agencies sought to hire strikebreakers and their wives to combat picketing by wives of strikers.

Women strikebreakers were given work which women handled during the war. Strike sympathizers here, including women, stormed the home of Michael Liepewich and wife who were alleged to have worked in the Pullman repair shops.

Windows were broken and the couple was threatened with further violence unless they quit work.

Sporadic rioting continued throughout the night in Chicago shop districts. Police received frequent calls to quell clashes.

Although seven companies of National Guard troops were held under arms in Illinois, the state did not move them into the districts where clashes were reported.

A crowd of 100 strike sympathizers gathered along the car line leading to the Baltimore & Ohio shops today.

As cars carrying strikebreakers leaving on the midnight shift attempted to pass trolleys were pulled off and "spotters" pointed out the men who were working.

The crowd stormed the darkened cars and dragged the strikebreakers to the street beating them. Seven men were taken to railroad hospitals.

STILL GOING CP.

Washington, July 8.—Further increases in the cost of food are in prospect, Senator David J. Walsh, Massachusetts, Democrat, forecast today on the heels of the Labor Department announcement that 18 out of 22 cities registered increases during the past month.

Officials at the Department of Commerce likewise predicted increases. Walsh charged high food schedules in the tariff bill would operate to push commerce officials held that agricultural prices, now on the rebound after a severe slump, are responsible.

Mrs. W. Hall Strode and son, Bell Hall, are visiting relatives in Central Kentucky.

According to reports reaching Sheriff Swanson's office, fifteen automobile loads of union miners from Pomeroy and vicinity visited Cheshire this morning and, flourishing revolvers, threatened the approximately one hundred non-union miners with violence if they continued work.

Sheriff Swanson and several deputies immediately rushed to Cheshire, but the non-union men had stopped work when they arrived. Despite the threats of violence, Sheriff Swanson said the mines would be reopened tomorrow morning and that he would give the working miners ample protection.

Sunday's Games to Be the First Under the New Bluegrass League Schedule Now Being Worked Out in Maysville.

President Thomas M. Russell and Secretary-Treasurer E. L. Willett, of the Bluegrass League of baseball, have been working overtime for the past two days trying to arrange a new schedule for the last half of the season that will be acceptable to all clubs and they announced Saturday that they are having an unusually hard job to arrange the schedule so that all will be pleased and that every club will get a fair deal.

Lexington is to have ten Sunday games and Cynthiana does not want Saturday baseball. This is causing the greatest amount of trouble but the officials of the league hope to have the matter worked out entirely by Sunday.

The first games under the new schedule will be played Sunday and the Cardinals will have as their opponents for the opener, the Cynthiana club which has strengthened considerably in the past few weeks.

Manager Boskins and his men are starting into the second half of the schedule determined to come out winners as they did in the first half.

ATTEMPTED JAIL DELIVERY AT FLEMINGSBURG.

The Fleming Gazette says: Saturday Jailer Tom McRobert noticed something wrong with one of the jail window bars on the second floor of the jail corridor and on investigation found the bar had been sawed almost half in two and the crack filled with chewing gum. The jailer assisted by the sheriff and Chief Vannardale at once made an investigation and found a saw blade concealed in the crack of a bench. The suppo-

sition is the saw had been brought in by some one and passed to one of the prisoners, Richmond Royse being suspected of using it. Royse is in jail for bootlegging and has before him a 90 days sentence and \$1,000 fine. There are also five other prisoners, and the custom of the jailer has been to allow them the freedom of the corridor during the day and to put them in cells at night. The sawing on the window bar was evidently done in the day time.

LOW WOOL PRODUCTION EMPHASIZES NEED FOR CULLING SHEEP FLOCK.

Lexington, Ky. — Five pounds of low grade wool represents the annual production of the average sheep in Kentucky, according to L. J. Horlacher, in charge of the sheep work at the College of Agriculture. In addition to this, many animals can be found in practically every flock in the state that furnish strong evidence for the need of culling the flock at this time of the year, he said.

"An average annual production of

five pounds of wool for each sheep in the state means that many animals are producing as low as two pounds. Every flock has its light shearing sheep while animals that are of poor mutton type, uncertain breeders or unsound in some respect occur frequently even in the best flocks. Frequently, caked udders result from lack of attention at weaning time with the result that the ewe is of no further value as a breeder.

"Additional importance is attached to culling the flock in that ewes begin to lose their teeth at around seven or eight years of age. Such animals require more care and attention if they are to be profitable and usually should be eliminated.

"The most desirable breeding ewes are well grown and rugged with straight body lines and plenty of capacity for feed. They are feminine in appearance, sound in their mouths and udders and are covered with dense heavy fleeces of fine quality. The most desirable ewes are from one to four years old. Care should be taken to cull out all misfits so that the flock will be as nearly uniform as possible in size and breeding qualities. Such a flock will produce a more even bunch of lambs and eventually increase the profits which its owner realizes."

Larue county farmers are showing a lively interest in the possibilities of improving their soils by means of limestone. County Agent J. W. Jones says. Interested persons in the Tonticville section have made arrangements to have a total of 700 tons of limestone

WHY WOMEN SUFFER

Many Maysville Women are Learning The Cause.

Women often suffer, not knowing the cause. Backache, headache, dizziness, nervousness, irregular urinary passages, weakness, languor—Each a torture of itself. Together hint at weakened kidneys. Strike at the root—get to the cause. No other remedy more highly endorsed than Doan's Kidney Pills. Recommended by thousands—Endorsed at home.

Here's convincing testimony from a Maysville citizen. Mrs. W. A. Schatzmann, 605 East Second street, Maysville gave the following statement November 15, 1916: "From the benefit I have derived from the use of Doan's Kidney Pills I have every reason to recommend them. Whenever my kidneys have been irregular in action or I have suffered with a weakness or lameness through the small of my back I have used a box or so of Doan's and they have always cured the attack quickly."

On November 22, 1920, Mrs. Schatzmann said: "Doan's Kidney Pills certainly do all that is claimed for them. I gladly recommend them again. Doan's gave me a lasting cure." Price 60 cents, at all dealers. Don't simply as for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Schatzmann had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Subject: "Nebuchadnezzar's Dream"

Memory text: "The kingdoms of this world are become kingdoms of our Lord, and his Christ; and he shall reign forever and ever." — Rev. 11:15.

The Kingdoms of the World and of Christ.

1. "The Anxieties of Kings." It is natural that the minds of such men as built up vast empires should ponder the question as to how long such will last. Great men want to leave behind them lasting institutions. Napoleon wished to establish a dynasty with his brothers on thrones of other countries and with a son of his own establish a great head empire.

But in this world of change, very few things are lasting. Empires rise and fall. Kings of the earth fade away. Fortunes vanish. Great and noble families become obscure and others take their place. Napoleon on the Isle of Helena declared that ancient kings and other mighty empires pass away but that of Christ abides. That which appeared to him most wonderful was the kingdom of our Lord.

Nebuchadnezzar had inherited his throne from his father, and being a great conqueror himself, he desired to know how long his great empire would last and that his crown would pass on to his son. His father and he had conquered other nations but they asked, "Will Babylon some day fall?" In that same way we ask: Will the monarchies of Europe all fall? Will rival nations dispute our power? Will the Pacific?

2. "A Dream-Vision." A year on the throne, a year of ceaseless activity of high-strung output of energy, had thrown Nebuchadnezzar into a sleepless state. In broken sleep he saw pass before him, a strange and monstrous vision. On his royal bed, he tossed uneasily; there came to the monarch a dream of unusual vividness and strangeness that seemed to impress him that its bearing was upon himself and his future. He awoke. Only a vast outline of the dream could be seen. Then it faded. He remembered that he had seen something of great import but could no longer remember what it was. Strive as hard as he could yet he could not bring it back to his remembrance.

3. "A Lost Dream." The lost dream haunted him. He could find no rest. He awoke. He partook of his food. He called for the men about him who practiced occult. They professed to be profession interpreters of dreams.

4. "A Tyrant's Demand." These men had succeeded thus far in holding the confidence of the king. He believed in their mysterious power. The haunts of the dreadful dream so weighed upon him that he felt his mind falling him. He therefore in hope of getting this great load off his mind demanded that they interpret his dream. But they ask: "What dream?" He told them that he had a dream but could not remember it and that they should recall the dream and interpret it or lose their head. This was the demand of the insane king. The occult leaders were horrified at their critical position. They declared such a de-

man as unheard of and the fulfilling of it beyond any man's power.

5. "The Dream Recalled." If carried out this decree would have included Daniel and his three friends also. They hearing of the decree prayed unto their God for the dream. In the night Daniel received the vision of the Lord with the interpretation thereof. He thanked his God and told the guards to spare the lives of the men and that he would fulfill the king's demand.

The king listened under a spell to the words of the mighty man Daniel. Announcing to the king that it was the God of Heaven which had revealed the dream to him he declared that the great king had seen a great image which was bright and terrible. With head of fine gold, breast and arms of silver, with belly and thighs of brass, with legs of iron, and feet of iron and clay. He said that there had come a stone that was cut without hands which smote the image on the feet and broke them, and had broken the iron, the clay, the brass, the silver and the gold to pieces even as the chaff of a threshing floor, that the wind had carried away the dust, while the stone became a vast mountain.

Daniel told him that kingdom after kingdom should rise and fall until God should set up one that should never be destroyed. Awed by the mysterious interpretation, at the short-lived greatness of his own royal power, awed by the glimpse of that vast spiritual kingdom that God would establish, he fell on his face, acknowledging the God of Daniel as the true God. Then he set Daniel and his friends in places of highest power in his kingdom.

6. "The Stone." "The stone is Christ," Isa. 28:16; Mat. 21:42-44. The end is not by gradual and peaceful extension through gospel preaching. The stone does not (1) like earth by crowding out the colossus, neither by securing its submission to God, but by a crushing blow. It is after the stone has done its mighty work that it becomes a great mountain. — P. B. Fitzgerald.

FARM AND HOME NEWS FROM OVER KENTUCKY.

Many of the 300 Kentucky farm boys and girls who attended the recent annual "Junior Week" held at the College of Agriculture at Lexington experienced their first real thrill in making the trip and taking part in the festivities of the week. Daviess county sent one girl and two boys to the event who had never ridden on a train previous to their trip to Lexington. Another girl from the same county had never ridden more than ten miles on a steam line before.

Daviess county farm boys and girls who are members of the Newman Junior Agricultural club have launched a campaign to beautify the lawns in

their district, according to County Agent J. E. McClure. Prizes will be offered for the lawns which show the greatest and most economical improvement by next June.

who pointed out in his talk on grading that Kentucky farmers last year lost more than \$50,000 on cream that went to market in poor condition.

Cream grading methods are being presented to Cloway county farmers in order to help them reduce the losses which they suffer each year from poor quality cream. County Agent J. B. Gardner says. Interested persons in the vicinity of the Murray cream station recently were addressed by J. O. Barkman, dairy specialist from the College of Agriculture at Lexington.

DISABLED SERVICE MEN ARE BEING CLEANED UP

Desperate Effort Being Made By Veterans' Bureau To Clean Up Claims Against Nation.

The sixth conference was held June 23d at Princeton with representatives from Caldwell, Fulton, Hickman, Carlisle, Ballard, McCracken, Graves, Livingston, Marshall, Calloway, Crittenden, Lyon, Trigg, Union, Webster, Hopkins, Christian, Henderson, Muhlenberg, Ohio and Grayson counties.

The seventh and last conference was held June 24th at Danville with representatives from Lincoln, Adair, Russell, Green, Taylor, Marion, Garrard, Madison, Rockcastle, Pulaski, McCreary, Wayne, Clinton, Whitley, Laurel, Jackson, Clay, Knox, Bell, Harlan and Casey counties.

Representatives of the U. S. Veterans' Bureau, the Government machinery, created to care for the World War disabled, sent officials to each of the conferences to explain the necessary forms and procedure and evidence required, so that the several representatives would be in position to properly assist their disabled comrades in preparing claims.

The entire press of Kentucky is co-operating in this drive and it is this drive and it is evident that Kentucky will once more go "over the top" in a World War drive.

Jackson Morris is Chairman of Kentucky Disabled Ex-Service Men's Board which was created by the 1922 Kentucky Legislature to assist Kentuckians disabled in the World War to secure the compensation provided for them by the Federal Government. ASHLAND TO HAVE RACING NEXT AUTUMN.

Ashland, Ky., July 7. — A deal was closed this morning for 260 acres of land for a race track five miles below the city limits of Ashland, at a point known as Chinnville. The land was bought from the Mead, Fisher and Walker heirs. Thomas B. Cromwell of Lexington, one of the promoters, said there would be racing here this fall.

It is estimated that the proposed race track will be the largest in Kentucky, both in point of track length and in the matter of the buildings and grounds. The track is to be a mile and an eighth long. The total expenditure will be in the neighborhood of \$400,000, he said, the concrete and steel grandstand costing about \$275,000.
